

Task: Write your own paragraph describing the city.

The above example is a pupil's work, it has some very exciting vocabulary but I think that you can create an even better setting description!

Like we have been doing with Super Sentence stackers, I would like you to try to write 9 sentences.

Challenge try to include the following:

- Fronted adverbials to share where OR how
e.g. Calmly, the summer breeze swam through the air like a dolphin.
- Include senses description- sound/smell/sight
e.g. Emerald grass swayed effortlessly in the morning breeze.
- Include descriptive devices to add interest such as simile and alliteration
e.g. The sapphire sky gazed down at the ant like people, who busily trudged into the markets.
Mount Vesuvius, Pompeii's greatest protector, looms longingly over the citizens of the noble city.
