

The Ring of Fire Mini Booklet

Instructions

1. Colour in the title page illustration on page 1.
2. Cut out the map below and stick it onto page 2. Find out and explain where the Ring of Fire is in your own words.
3. Choose some of the statistics below and stick them onto page 3.
4. Conduct your own research and try to explain why the Ring of Fire has so many earthquakes and volcanoes. Write this information onto page 4.

If your mini booklet is for a lapbook, why not create a pouch or envelope to store it in?

<p>The Ring of Fire stretches for over 40000km.</p>	<p>80% of the world's earthquakes occur in this area.</p>
<p>There are 452 volcanoes located along the Ring of Fire.</p>	<p>22 of the last 25 biggest volcanic eruptions on Earth occurred in the ring of fire.</p>
