Internet safety guidelines to follow and learn.

LO: To know how to refine searches using the Search tool.

Starter:

What words can you think of that begin with S?

When we think about S in ICT we think about **safety**.

- <https://www.childnet.com/resources/video-lessons/the-s-rule>

After watching the video choose and complete one of the following activities:

Idea 1:

Create your own 'keep it safe' or 'give it away' game. It could be a board game where players have to decide if they 'keep it safe' or 'give it away' by the cards you create with examples on to move along the board. You could log onto Purple Mash and create a game on there. Share your ideas in any way you like, as long you let us know on Seesaw.

Idea 2:

Make a poster to teach people that passwords are like toothbrushes.

Idea 3:

Create a superhero that helps people protect their personal information.

Plenary:

- What does it mean to be kind?
- How does that make people feel?
- What kind of things can we do in school?
