The Dark: Descriptive writing.

At night, the dark would spread itself all over the house. It lurked in the corners and hid behind doors. Lazlo was scared but he tried to be brave. He would use his torch so that he could keep the dark away. The bright, yellow torch would push the dark further away from Lazlo and made him feel safer. He felt as if the dark watched him all night yet he didn't know what it wanted. Lazlo was afraid to ask.
