Comprehension.

When we read, it is important that we have understood what we have read. We check that we have understood it by answering questions about what we have read. At Christ the King, we follow VIPERS when thinking about the different types of question we might come across.

Each week we're going to read a bit more of the same book and try to answer different types of questions. You will see a letter next to the question number and this is to show you what reading skill you are using by answering the question.
