

# Number 9

## How Many Ways?

Nine can be made up of two different Numberblocks! How many ways can you combine the Numberblocks to make 9? Colour Nine in different ways. How many ways have you found?

$$\square + \square = \boxed{9}$$

Nine can be made up of different Numberblocks! How many ways can you combine the Numberblocks to make 9? Colour Nine in different ways. How many ways have you found?

$$\square + \square = 9$$

$$\square + \square = 9$$

$$\square + \square = 9$$

$$\square + \square = 9$$

$$\square + \square = 9$$

$$\square + \square = 9$$

$$\square + \square = 9$$

$$\square + \square = 9$$

Nine can be made up of different Numberblocks! How many ways can you combine the Numberblocks to make 9? Finish colouring Nine in to make different pairs of numbers that total 9.

$$1 + \square = 9$$

$$2 + \square = 9$$

$$3 + \square = 9$$

$$4 + \square = 9$$

$$5 + \square = 9$$

$$6 + \square = 9$$

$$7 + \square = 9$$

$$8 + \square = 9$$
